Alex Geiger is an accomplished professional with an impressive 18-year tenure in engineering, coupled with 10 years in construction management. As a seasoned expert in office maintenance, capital improvement projects, and construction management, Alex brings an abundance of experience and a proven track record of success to his position at Younger Partners. His wealth of knowledge ensures the highest level of proficiency in every project he undertakes.

In his role, Alex effectively coordinates and oversees all aspects of construction projects, ensuring seamless execution from inception to completion. He adeptly handles contractor selection, project scheduling, and cost management, meticulously keeping projects on track and within budget. His ability to navigate complex construction challenges and proactively address potential issues has garnered him a reputation for delivering projects with uncompromising quality and efficiency.

Alex remains committed to spearheading the onboarding process for new buildings, streamlining operations, and implementing innovative policies and procedures to enhance overall building efficiency. His proven ability to deliver excellence, coupled with his dedication to teamwork and innovation, makes him an ideal candidate to lead and elevate Younger Partners to new heights in the realm of construction and facility management.
