As an Associate on the Industrial Team, Mauricio Scott leverages his expertise in financial analysis, market research, and investment strategy to deliver valuable insights that help clients achieve their real estate goals. His ability to navigate complex transactions and build long-term relationships ensures that investments are strategically aligned with clients' business objectives.

With over five years of experience, including a proven track record in business development and managing high-profile projects, Mauricio has consistently delivered results that drive revenue growth and cost savings. His skills in building executive relationships, structuring complex deals, and providing strategic guidance will bring significant value to the industrial team. Mauricio holds a Bachelor of Science in Industrial Distribution from Texas A&M University.
